WHY DO PHYSICIANS prescribe "Smith's Tonic S. rap, or Veget ble Febrifuze," for C. and Fever? It is first—because they know it is compounded from the most valuably substances found in the vegetable kingdom; second—they are aware the process of extracting those substances is done with the strictest regard to their chemical and and therapeutical properties; third—because the the effect produced by the administration of this medicine is of that certain but harmless character whichlno other remedy is capable of producing, in restoring the patient to sound amp permanent health.
